ART PRICING AND GUIDELINES

We can make almost anything out of nothing, but we warmly welcome your pre-designed art or images. Different jobs may require different file types, so here's a quick cheat sheet if your looking for some quick guidelines.

Files accepted:

Adobe CS4 or Earlier. *We do not accept Microsoft Publisher files. If you have them, please contact us at 406.549.3575*

| | |
|----------------------------------|-----------------------------------|
| .pdf | .ai or .eps |
| .psd | .jpg or .jpeg, 300 dpi resolution |
| .tif or .tiff 300 dpi resolution | .png 300 dpi resolution |

Screen Printing:

EXACT IMAGE provides custom T-shirt design's and screen-printing from a team with 20+ years experience. The art staff is available to generate garment designs for any event or business. If art is already created for garment printing please submit designs with the following guidelines. For the best color matching, we request all spot colors.

- If possible, your art file should have a transparent background for optimum results. If you are unsure of any of these requests, please call or drop us an e-mail and we will be happy to walk you through the file preparation process.
- After the design enters the production department, all customers will receive a request to schedule an appointment for a press check. Once a design is approved by the client, the production process will begin according to schedule.

Promotional Items:

For 99.9% of promotional item branding, the following files are best. Please provide pantone colors to make sure your image prints just the way you envision it.

.ai .eps .pdf

Print Products:

Call Exact Image – 406.549.3575 – or e-mail – info@exactimagemt.com – for templates.

Embroidery:

In order to get the closest match to your desired thread colors, please provide Pantone or Madeira thread colors.
